

Q & A

What is the Round Up Program?

Our Round Up Program is a way for shoppers to help enhance Goodwill's mission of providing job training and career services that help individuals with special needs get to work. You can either "round up" your purchase to the nearest dollar OR donate a set amount (\$1, \$3 or \$5). All of these options are displayed on the credit card terminal machine.

How does my change help Goodwill?

Here at Goodwill, 85 cents of every dollar generated by our retail stores directly funds our high caliber job training programs. Your change helps us change the lives of local residents for the better by providing them with the job training needed to become employed.

Who does Goodwill help?

Goodwill helps anyone who needs or wants a job—be it a veteran, high school drop out or someone with a physical disability. Our FREE community-based services include a weekly JOB CLUB, which helps connect job seekers with employment and The Helms Academy, which provides basic adult education programs to people who have dropped out of high school.

Aren't I helping by shopping and donating here?

Yes—absolutely and we thank you for your patronage! But with so many people still out of work, every penny counts. Every extra dollar helps us to continue to provide and expand our services to reach even more people.

Where can I learn more about how my change is being used?

You can visit our website at www.goodwillnj.org to read about our programs, services and successes. Or call our corporate office at 856-439-0200.

Great, can I give MORE?

Of course! The easiest way to do this after we close out your purchase today would be to visit www.goodwillnj.org and give a financial gift securely via credit card through the DONATE NOW button.
